IMPROVING THE
REMOVAL OF EXTRACTIVES
IN PULP PRODUCTION, ITS
PRODUCTION AND USE

**INFORMATION DISCLOSURE STATEMENT
PURSUANT TO 37 C.F.R. §§1.56, 1.97 and 1.98**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant, in order to meet his duty of disclosure, set forth at 37 C.F.R. §1.56, submits herewith those references which he deems relevant to the claims of the present application.

The relevant references are as follows:

1. GB 1,129,053, dated October 2, 1968;
2. U.S. Patent No. 4,673,460, dated June 16, 1987 issued to Raff;

CERTIFICATE OF MAILING UNDER 37 C.F.R. §1.81(a)

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450 on September 26, 2005.

Dated: September 26, 2005

Edward W. Grolz

3. U.S. Patent No. 2,144,756, January 24, 1939 issued to Fritz;
4. U.S. Patent No. 2,074,473, dated March 23, 1937 issued to Jayme;
5. SE 311 468, dated June 9, 1969;
6. Hagglund, E., Chemistry of Wood, Academic Press Inc., 1951, pp.490-91; and
7. Puumassan Valmistus II Osa 2, page 1341, Turku 1983.

It is noted that in the case of SE 311 468, said reference was cited in the corresponding international search report, a copy of which accompanies this Statement. Although an English abstract is not available, applicant notes the following. SE 311 468 relates to alkaline cooking of wood, preferably hardwood wherein the resin content is reduced by adding thereto sodium alkylarylsulphonate having a general formula A-X-SO₃-Na, wherein A is a straight or branched hydrocarbon chain with 4 to 20 carbon atoms, X is a iso-cyclic radical, such as benzene or naphthalene. On page 2, lines 11 to 16, and in Example 1, tall oil is mentioned as a wood cooking aid. However, this reference refers to the traditional use of tall oil which has many disadvantages as mentioned on page 2, lines 12-13 of said document. These disadvantages include varying availability and quality of crude tall oil, contamination problems and high loading of the cooker due to large amounts of tall oil.

With respect to reference 7, this reference was cited in a corresponding Finnish search report and identified as representing the general state of the art. A copy of said Finnish search report is enclosed as well.

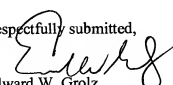

Applicant respectfully requests that the above-mentioned references be made of record in the file of the present application. To that end, Applicant submits herewith the aforementioned References Nos. 1 and 5 to 7 and the completed Form PTO-1449, setting forth these references.

In accordance with the waiver of 37 C.F.R. § 1.98(a)(2)(i) in effect as of June 30, 2003, Applicant is not required to submit copies of the above-cited U.S. patent references.

Applicant submits that the filing of this Information Disclosure Statement is before the mailing date of a first office action on the merits. Therefore, no Declaration or fee is required to affect the filing of this Information Disclosure Statement.

Consideration of this Information Disclosure Statement is respectfully requested, since the information provided herein may be material to the patentability of the subject application as defined in 37 C.F.R. §1.56.

Respectfully submitted,

Edward W. Grolz
